

THE ELIXIR CLINIC

“Our philosophy is to design a wellness lifestyle for clients that goes beyond a treatment.”

Established in 2013 in London’s medical district, The Elixir Clinic is an international wellness clinic recognized as a market leader in intravenous therapy offering preventive health solutions across Europe, the Middle East and Asia.

The Elixir Clinic offers an extensive selection of therapies which include intravenous, anti-aging, regenerative, holistic, and intramuscular treatments to optimize vitality, slow down the aging process and improve your quality of life.

The Elixir Clinic's tailor-made IV infusions, branded as a VitaDrip® are a unique blend of vitamins, minerals, and amino acids; all classified as 'essential nutrients' vital for the body.

VitaDrip® infusions are brilliantly formulated to help clients rejuvenate while promoting prevention and vitality. Our IV infusion are designed to target clients' goals that include nutrient deficiencies, hydration, detoxification, immune health, anti-aging, fitness, energy boost and recovery.
